PROJECTS

Full Stack Blog application
Jan 2024 - Feb 2024

Successfully developed and deployed a fully functional blog application that empowers content creators to publish, manage, and engage with their audience effectively. Skilled in user authentication, CRUD operations,
rich text editing, and responsive design, I am committed to delivering high-quality solutions that meet user needs and exceed expectations.
Techstack : HTML ,CSS ,Javascript ,Bootstrap ,Python ,Django,sql lite

ProjectX
Jan 2024 - Jan 2024

Developed a comprehensive CRM system using Django, a high-level Python web framework. The project aimed to streamline customer relationship management processes and improve operational efficiency for businesses.
Technology used : Html,css,bootstrap,javascript,Django

Architect webpage
Apr 2023 - Apr 2023
https://avinash346.github.io/Architect-/

Developed and launched a professional website to showcase architectural expertise and services.
Designed the website with a focus on user experience and mobile-friendliness.
Highlighted your design philosophy, experience, and project portfolio.
Implemented clear calls to action for potential clients to contact you.
Techstack : html,css,javascript,flexbox

Bucket tracker

Sep 2022 - Oct 2022

https://avinash346.github.io/budget-tracker/

successfully developed a bucket tracker project that enables users to organize and track their goals and aspirations.
Technology used : Html,css,javascript

Air travel website

Apr 2022 - Apr 2022

https://avinash346.github.io/AirTravel-webpage/

Successfully developed an Air travel website project that mirrors the design and functionality of the original platform.
From designing responsive layouts to styling elements and components to match the Airbnb aesthetic, I have demonstrated my ability to translate design concepts into code with precision and attention to detail.
Technology used:Html ,css,flexbox
